PROFESSIONAL SUMMARY

UX/UI Designer with 3 years of experience designing user-centered web and mobile products, including fintech and digital insurance solutions. Skilled in user research, usability testing, A/B testing, user flows, prototyping and design systems in Figma. Works closely with product managers, engineers and business stakeholders in Agile teams to turn user needs and business goals into intuitive, consistent and on-brand digital experiences.

EXPERIENCE

UX/UI Designer | Webidea Mar 2026 – Present

Fitxlink: B2B and B2C gym management SaaS (CRM web app for gym owners, mobile app for members)

- Redesign the Fitxlink CRM web platform and member mobile app, improving user flows and information architecture for both business and consumer users.
- Conduct user interviews, surveys and usability tests with gym owners and members; synthesize findings into prioritized pain points and design improvements.
- Run A/B tests to validate design changes and iterate on key flows based on the results.
- Build and maintain the Fitxlink design system: reusable Figma components, styles and usage rules that keep web and mobile interfaces consistent.
- Prepare developer-ready handoff (specs, prototypes, edge cases) and work closely with engineers to make sure designs are delivered as intended.

UX/UI Designer | Andersen Oct 2025 – Mar 2026

Fintech product, cross-functional Agile team

- Designed UX/UI solutions for a fintech product, from user flows and wireframes to high-fidelity prototypes.
- Collaborated with international stakeholders, product managers and developers in Agile sprints.
- Contributed to product discussions and design decisions, presenting design rationale to stakeholders.

Product Designer | Stadi10 Oct 2024 – Feb 2026

Stadi10 Business (CRM app for businesses) and Stadi10 (customer-facing app)

- Conducted UX research with business owners and end customers to identify their needs and pain points.
- Translated research insights into user journeys, information architecture and user flows for both products.
- Designed consistent interfaces across the platform using a shared library of reusable UI components.

UX/UI Designer & UX Researcher | Contract Projects (Upwork) May 2024 – Feb 2026

- **Saf Takaful:** Designed a Sharia-compliant digital insurance platform with clear, easy-to-use online flows.
- **2Feat:** Redesigned the product for the U.S. market and designed new features to improve the user experience.
- **Entherno:** Designed a user-centric company website in close collaboration with developers.
- **Agrovod:** Redesigned the mobile app interface to improve usability.

UX/UI Designer & Researcher | Nevera Tech Dec 2023 – Nov 2024

- Improved the user experience of the Aloha Live app through user research and user-centered design.
- Worked closely with developers and the product team to turn research findings into intuitive UI improvements.

UX/UI Designer | Weblash Sep 2023 – Sep 2025

- Delivered user-friendly, data-informed design solutions for web and mobile projects.
- Improved user journeys based on analytics and user feedback, collaborating closely with the team.
- Worked directly with clients to gather requirements, present design concepts and iterate on feedback.
